www.hrlocker.com

HRLocker

WHY US?

- Integrates with Microsoft Teams
- Provides SSO
- Provides Data Warehousing
- Built in Microsoft Azure Cloud
- GDPR Compliant
- ISO 27001 Certified

Our HR software solution includes Absence Management, Performance Management, Timesheets, Training & Development, Applicant Tracking, and Project Management.

HRLocker is easy to set up, easy to use and can go live in less than 24 hours.

Excellent Customer Support .

HR Docs & Employee Database

Add employees to our employee directory and easily centralise your employee database.

Export information anytime and add new employees as you scale. Employee Sef-Service allows your employees to manage their own information, freeing up valuable time.

Upload unlimited HR documents like employee handbooks, remote working policies and all required HR Documentation.

HRLocker sends reminders to employees to read and sign their documentation.

Collect signatures on policy & procedure docs, and archive contracts and templates that are no longer current.

HRLocker takes the heavy lifting out of time-consuming tasks and minimises the need for countless emails.
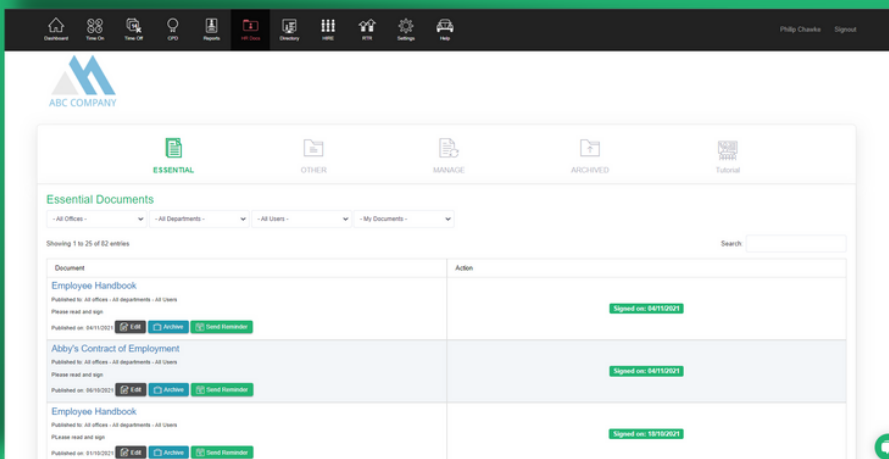

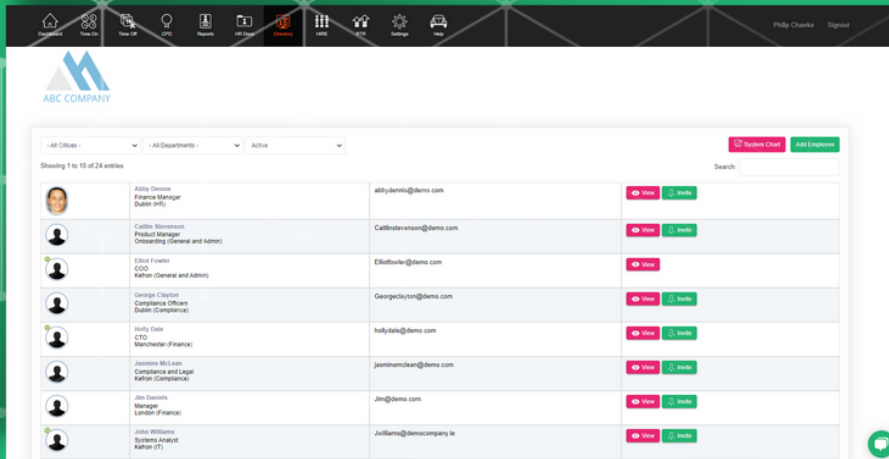

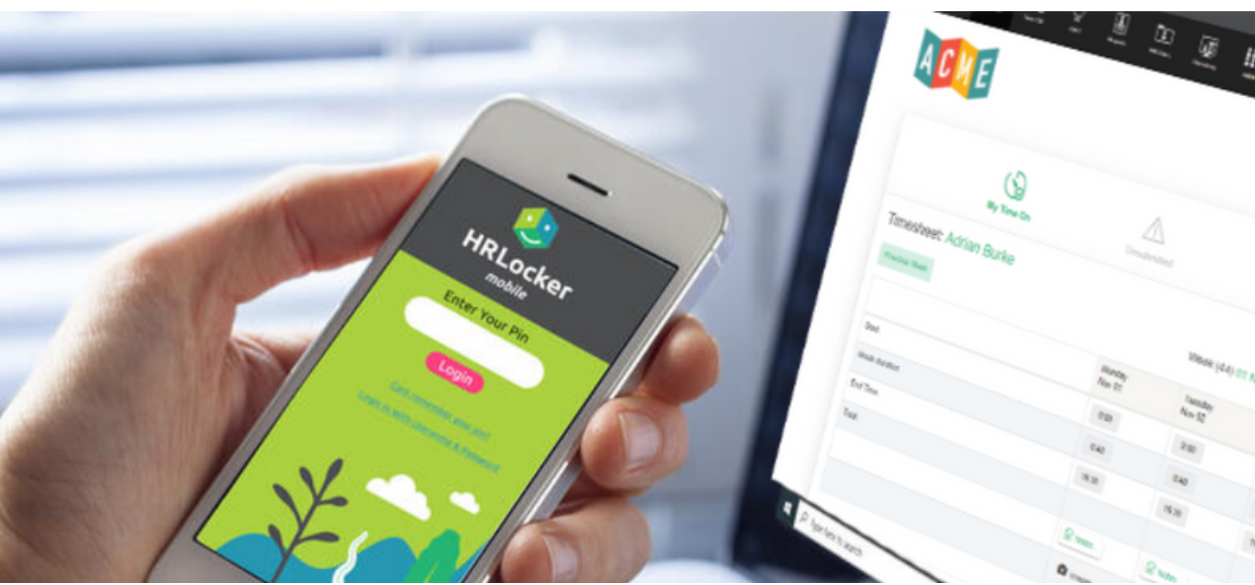

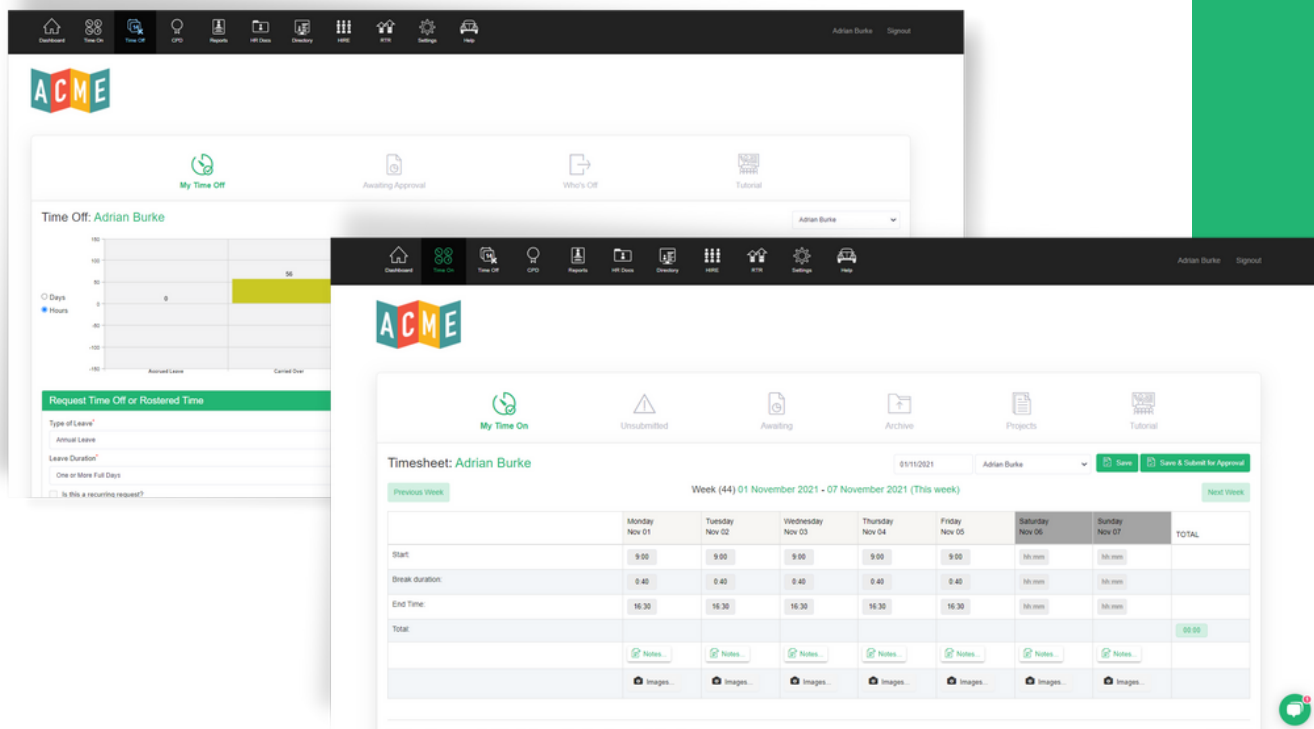

Time Management

HRLocker's time management module allows you to easily manage timesheets and projects. Allow remote & on-site workers to log hours manually, remotely, or using their IP address.

Clock-in & clock-outs will feed directly into HRLocker and update the information in real-time, keeping your information up to date, compliant and n one centralised location.

HRLocker makes managing sick days, holidays, overtime and Time off in Lieu a breeze!

Payroll Integration assists with calculating overtime and hourly paid employees to give you error-free payroll. And the great thing is? - It works with all payroll software!

APPLICANT TRACKING SYSTEM

Find and recruit the best talent with Hire, HRLocker's ATS module.

Create a strong employer brand by posting to some of the best job boards.

Our Hire module is integrated with HRLocker which means after you hire your successful candidates, you can onboard them directly into the system.

HRLocker helps manage the entire employee lifecycle all in one place.

Performance Management

Reviews, HRLocker's Performance management module helps organisations to implement performance management goals.

Reviews allow you to keep your people in a continuous state of review which leads to better employee engagement, development, and growth.

With our easy-to-use system, Reviews allows you to gain powerful, real-time analytics that leads to actionable insights turning managers into leaders, and employees into high performers.

Training & Certification Management

Our CPD module is a simple and very effective way for you to manage your employees' training and certifications.

Manage, validate and record certificates & expiry dates inside HRLocker.

The CPD module allows you to send training needs requests and helps to identify skills gaps within your organisation. it also allows employees to request training.

Benefits of HRLocker

Our commitment to our customers is what sets us apart form the competition.

Adapts, scales and grows with your business

HRLocker scales easily with companies as they grow. We adapt to your company regardless of headcount. You can easily manage your entire workforce no matter what size.

Save time & money
