# Our Story

## Where it all started

In the 1990s when he moved to the UK, he ultimately became the Human Resources manager for Esat Digifone. This company rapidly grew to be O2 UK where Adam was the Head of Human Resources.

## Homeward Bound

Due to family reasons Adam returned to Ireland in 2003 and set up his own HR consultancy firm in 2004. In 2007 with the downturn of the economy, Adam had to scale his business back down to three people to weather the storm.

## The Birth of HRLocker

Adam agreed to do some HR analysis for a development company in Co. Cork in 2013, and after the collaboration came to fruition HRLocker was born. It was something that Adam saw huge potential in. HRLocker was then launched as a software product.

## Our Identity

Due to its cloud-based nature, HRLocker is a remote-first company.

HRLocker is a Deliberately Developmental Organisation (DDO) that uses adult development as the centre of its strategy. They operate as a transparent meritocracy where anyone in the business can openly challenge anyone else's ideas.

### HRLocker MTP

## Training Plan

Admin/Manager Training Schedule & Onboard Employees

# Our Customers

"HRLocker is a very simple-to-use HR software for both management and our staff. They help us keep all of our HR requirements in order for staff located in three different countries through one subscription. Their support staff are friendly and attentive."

"As a growing SME, we need an HR software solution that could tackle staff records & reviews, absence and holiday bookings that moved away from our excel and word docs. By introducing HRLocker we have greater visibility, and reporting and employees can manage their own holidays."

# HRLocker

Happy working.
